Tomy Wibowo

SMK Rekayasa Perangkat Lunak

(2020 / 2021)

ABOUT **ME**

I'm a junior programmer graduated from SMK Negeri 1 Rembang majoring in Rekayasa Perangkat Lunak. Have the ability and interest in programming. I am able to make Websites, RESTful APIs, Slicing designs to become websites, and like to solve a problem. I really like programming, because with programming I can put my ideas into an application. Previously I used to work on projects both individually and in teams. I am disciplined and have good communication, so I can work individually or in a team
